Sub-processors

Version: 23 November 2026

> This list forms part of Annex 2 of the data processing agreement. We notify licensees by email of new or changed sub-processors at least 14 days before they are used. Within 14 days you can object for an important data protection reason (to info@datafuse.it).

1. Sub-processors for meeting content

These services process meeting content (recordings, transcripts, minutes, attachments) on behalf of Datafuse.

Provider	Service	Location
Hetzner Online GmbH	Server hosting, data storage, attachments, backup	Germany (EU)
Microsoft Ireland Operations Ltd. – Azure AI Foundry	Transcription, speech processing, creation of minutes	Sweden (EU), fallback Netherlands (EU)
Hostinger International Ltd.	Sending minutes emails without a Microsoft account (noreply@ratsch.bz)	EU

2. Other service providers (no meeting content)

These services only concern contract, account, payment and billing data. Datafuse is the controller for this (see the privacy notice for contract and account data).

Provider	Service	Location
Stripe Payments Europe Ltd.	Payments, subscriptions and credit	Ireland (EU), transfer to Stripe, Inc. (USA) possible
TeamSystem S.p.A. – Fatture in Cloud	Invoicing	Italy (EU)
Striptu – Kamil Jabłoński (sole trader)	Transfer of invoice data from Stripe to Fatture in Cloud	Poland (EU), hosting OVH (EU); some of Striptu's providers outside the EU with standard contractual clauses
Hostinger International Ltd.	Mailboxes (info@, support@), domains	EU
Microsoft – Azure AI Foundry	Draft replies for our customer service (no meeting content)	Sweden (EU)

3. Not a sub-processor: Microsoft 365

If you sign in with Microsoft and use calendar, OneNote, tasks or sending from your own mailbox, Microsoft 365 is a service of your organisation or Microsoft account and not a sub-processor of Datafuse.

4. Changes

- 23 Nov 2026: list published for the first time; Striptu details added.
